CABINET
& basins

sealed edges

•100% sealed and reinforced edges that prevent detachment.

low absorption

•Moisture resistance due to its sealed edges.

high durability

•Resistance to loads and/or repetitive movements over time.

soft close

•Hinges and rails with soft and silent closing.

secure fit

•Installation system that prevents the vertical displacement of the shelf.

interior design

• Modular design.
•Interior shelves or drawers that help optimize space.

- * Handleless design with smooth surfaces.
- * Stainless steel hinges with Soft Close system.
- * Maximum resistance 150 Kg.
- * Made of MDF or MDP (Amélie and Zoe models).
- * Complies with European standard E1 for formaldehyde emission.
- * Includes metal reinforcement for installation and set of fixings to the standard wall.

BASINS

MAIN FEATURES:

- * Angles and slopes of 2° towards the drain.
- * Manufactured in Vitreous Earthenware.
- * Includes high flow overflow.
